Linebacker and new Chicago Bear inside linebacker Markus Kennedy has undergone a procedure on his broken ankle and will miss his second season with the NFL club. The Bears placed Kennedy on season-ending injured reserve Wednesday. Last season, Kennedy (6-foot-3, 240 pounds) recorded 47 tackles, 1 1/2 sacks and two interceptions in 15 games (six starts). He signed with Chicago in March as a free agent from the University of Michigan, where he played four seasons and totaled 115 tackles, 3 1/2 sacks and two interceptions.

Q: How to delete column in SQL Server with an user I'm trying to delete a column in SQL Server with an user (without a password). I use the following code : ALTER TABLE [dbo].[db_Tbl] DROP COLUMN id But I always receive an error : The statement has been terminated. What I'm doing wrong? A: You don't need ALTER TABLE for that. Instead, simply try the following.

```
drop column id from table db_Tbl } $.* } {F.void_obj_field} {:.next} {(TREE_TYPE_DIRECTION t2:TREE_TYPE)$.*} {:`(b). t2} {F.opaque} {:`(c). t2} } {( TREE_TYPE `^(a). o )$.*} { :.next {(TREE_TYPE_DIRECTION t2:TREE_TYPE)$.*} {:`(b). t2} {(

What's New in the?

Importing files is easier than ever before, and we've enhanced the

options to make that happen. **Keep drawing:** You can create your own shapes for use as insert masks, and use those shapes to import geometric and 3D information into your drawing. (video: 1:27 min.) **Color:** Multiple color choices make your design more realistic and dynamic, and we've added new options to support creating photos. **Design Notes:** Save yourself from having to painstakingly copy and paste each geometric element of your model. You can now transfer blocks from any drawing to any other drawing, making it much easier to manage complex designs. (video: 1:29 min.) **Flashback:** Our latest update of Flashback lets you take your time to get it right. There are enhancements to the way you use your drawings, making it easier to enter and view information from your drawings. **High-contrast color** reduces eye strain when you're working in dark areas of your drawings and in other places where you need to distinguish shapes and features. **Drawings:** The current release contains a new drawing file format, AcuDraw, which is optimized for use with AutoCAD on the Mac. AutoCAD Central can synchronize your drawing data across multiple Windows computers. You can edit and save changes on one computer, and they'll appear on your other computers without having to re-download or re-synchronize. **PDF Docs:** PDF Docs let you create interactive PDFs with AutoCAD drawings. When you open the PDF file, you'll see links to your AutoCAD drawings, letting you navigate the drawings and see the information. The links to your drawings will remain even if you delete your drawings from your PC. If you need to access the links to your drawings later, you can print them as a PDF or create a new PDF file to share with other users. **Graphics and Video Tools:** The new Graphics tab gives you access to the drawing tools you'll need to create images. You can import photos directly from your camera, and edit images and manipulate them using all your drawing tools. The Video panel lets you work with

video files and place them on your drawings. You can import video files, preview them on your screen, and create video loops to play in your drawings.
