Burning, copying, sharing, and sharing with a unique user interface makes it all fun and easy Description: Nero 10.2.20300.0 for Mac Burning, copying, sharing, and sharing with a unique user interface makes it all fun and easy. Burn and burn all your favorite information into one file-a single file for each burning type. For example, you can burn your favorite music files into a music CD, just as you would with a CD-R or CD-RW. You can also decompress any file you can to a zip file and also the latest burning software is the Nero Burning ROM, which generates you an ISO image for using on your portable media. If you want to add images to your drive, download them from Nero Burning ROM. The program lets you import video, music

and photos and create a slideshow. You can import images from a single folder or select images from your Favorites folder. To use images from other folders, simply drag and drop files into that folder. You can also add images from the Internet. 1. Click Add Images to select the images you want to add To import images from folders, click Add Images. 2. Select all or individual files to add to the project. 3. click
