\* Optimize your game, analyze your performance, improve your handicap. \* Keep track of how each round goes. \* Learn the rules and game strategies. \* Track hole configurations, handicap, greens in regulation, par and average putts per hole. \* Enter and analyze your game in detail. \* Record and analyze each round. Features: \* Track your scores. \* Significantly easier than other programs. \* Easy to use. \* Automatically calculations and displays. \* Assign the course and its distance from you. \* Assign private clubs and use them for your statistics. \* Track your personal stats and your hole performances and see the scoring rules and points scoring. \* Collect and view statistics and metrics. \* 3-way draw game support. \* Saves your courses during game play. \* Handicap calculator. \* Different handicap calculations. \* Scorecards of each course. \* Advanced statistics. \* Handicap calculator. \* Comprehensive instructions. \* Unique formats. \* Online and offline mode. What is new in version 1.13 changeinfo log Version 1.13 - Bug fixes. What do I need to do to get this info? Call me at 972-548-0666. Thanks, Kay ----- Forwarded by Kay Mann/Corp/Enron on 04/12/2001 09:34 AM ----- From: Roseann Engeldorf/ENRON@enronXgate on 04/06/2001 11:41 AM To: Kay Mann/Corp/Enron@Enron cc: Subject: RE: City of Austin Agreement Kay: I will get the info to you shortly. Thanks for the e-mail. Rose -----Original Message----- From: Mann, Kay Sent: Thursday, April 05, 2001 6:44 PM To: Manis, Herman Cc: Jacoby, Ben; Bills, Lisa; Engeldorf, Roseann; Schweiger, David; Enron Board of Directors Subject: City of Austin Agreement Hi Herman. Lisa and I are working to finalize the City of Austin deal for Cynthia. While I have your attention, please email me or Lisa with the following: 1.

Suitable for beginners Easy to use Save data Easily customizable Features: Golf course database Golf course management Nine hole round details Scoring rules Informative statistics User-friendly Scorecard is a simple yet reliable golf tutoring application, that enables you not only to keep the score for your favorite game, but also helps you understand the rules and the way points are awarded. It's user-friendly interface makes it a convenient tool for score keeping and statistics analysis. Scorecard Description: Suitable for beginners Easy to use Save data Easily customizable Features: Golf course database Golf course management Nine hole round details Scoring rules Informative statistics User-friendly Scorecard is a simple yet reliable golf tutoring application, that enables you not only to keep the score for your favorite game, but also helps you understand the rules and the way points are awarded. It's user-friendly interface makes it a convenient tool for score keeping and statistics analysis. Digital instructor The application may help you detect the areas in the game where your score lowers, so you can focus on your strong suits. Scorecard allows you to create a list of golf courses and customize each entry, by specifying its name, address, phone number and whether it supports 18 holes or 9 holes configuration. You can also mention the rating of the course, based on hole configuration, size or slopes. Multiple tees can be added and assigned a name, for better identification. Round details You can keep scores or record statistical data, with each round that you enter. Each round is defined by location details, such as course and tee name, as well as configuration. You may mention which hole scheme was played: the 18 holes, the front nine or the back nine. Weather conditions are also to be considered, especially when the wind is strong or temperature is problematic. You may mention such details, along with the type of round and personal notes. All the data is included in the statistics graph. Scoring rules Both scoring rules and score keeping are explained in the round properties window. The score is divided in two sides, the front nine holes and the back nine. Each hole is assigned yardage, handicap, fairway or putts indicators and values. The software supports individual notes and penalties count for each hole. Essential statistics The software 09e8f5149f

- Easily keep scores for 18 and 9 hole rounds
- Add courses, tees and notes for each round
- Name the layout of the course for each round
- Scores are kept in two sides, the first nine holes and the back nine
- Can be used for rounds played on a casual or a competitive level
- Statistical records of the round
- Weather condition and temperature recorded
- Individual notes and personal reminders can be added to each round
- All the data is stored in the software
- Entry details include course name, tees, holes, layout name, weather condition and temperature, and handicap rating
- The game can be played on 9 and 18 holes layouts, thus you can compare your game to others
- You can easily convert an existing score sheet into an entry format
- More than 600 golf courses and 150,000 tees are supported
- Customize the entries as you wish
- English, French, Spanish, German, Italian, Portuguese and Russian languages are supported

Mobile use of a mobile wallet comes with its own set of challenges, including: how can you carry your physical cards and cash? How can you securely store your sensitive data? How can you verify your identity and keep your cards safe? What apps do you need to install and which will work? What are the minimum network requirements for these services? The proprietary characteristics of mobile wallets are in conflict with the open nature of operating systems. For example, by default, the proprietary wallet software runs on its own, isolated, container. It is walled off from other applications. For example, the Android operating system is based on the Linux open source project. The kernel, which governs what other applications can do, is based on the Linux kernel. A developer can write a new application that will not affect another application because it is not its parent. There are a wide variety of uses for mobile wallets. They may include: mobile payments, mobile ticketing, loyalty programs, digital certificates, mobile identity verification, mobile wallets for mobile games,

What's New in the?

- Keep scores for your favorite courses
- Create multiple entries for each one, which allows you to keep score for different configurations of the hole
- Customize an entry with course name, address, phone number and configuration (single or 18 holes)
- Add tees, descriptions and ratings for each one
- Set weather conditions for each round
- Add scores for each shot
- Keep extensive statistics (front nine, back nine and overall)
- Print scorecards and round reports
- Save data to be imported back to the program
- Use Scorecard as a digital golf tutor, able to create a database of up to 50 entries
- Export data for printing scorecards and reports
- Exports scorecards and reports to a PDF format
- Individual notes for each hole
- Holes with a single arrangement can be assigned different handicaps
- Golf course rates for each configuration
- Setup weather conditions for each round
- Build a database of up to 50 entries
- Print scorecards and reports
- Exports data for printing scorecards and reports
- Adds scorecards from Excel spreadsheet

Windows 8, Windows 7 and Windows XP supported.

About Scorecard LLC: We are a software company based in Columbus, Ohio. Our software focuses on tournament tracking and statistics analysis in golf. Users have a full control on their entries and scores, through the interface designed for golf scoring, statistical analysis, printouts of scorecards, round reports and other tournament documents. GolfEye is a scoresheet app for golfers to enjoy both the challenges of the hole and the heart of competition. With an easy to use interface, it has a built in tie breaker mechanic that allows you to easily see and compare your nearest competitor's score, while offering you the choice of comparing your score to prior rounds you've played. GolfEye will automatically calculate your handicap based upon your past scores (before allowing you to make any changes) and take into account any changes you've made to your handicap in the recent past. The GolfEye scoresheet app makes it easy to keep track of scores in just one stroke a day. GolfEye allows you to enter your scores in up to 10 sports and display your game-by-game, handicap-by-handicap, and overall handicap-by-total scorecard. Use the GolfEye database to compare your competitor's scores, while automatically calculating your

---

**System Requirements:**

It's been some time since we've released an official game. Well, not really, but it's been over a year since the last one, right? The game's been rewritten from the ground up, from the logo and front page, to more than just a simple new vehicle. It's been a long time coming. So, I hope you'll forgive us if we do a bit of a production lapse. Before I get into the specifics though, I have a simple warning: This game runs very poorly on some systems. This includes most Xbox 360 models as well
