**User rankings are based on a total of over 7 million user ratings. The size of each circle is proportional to a given software's overall rating. These figures are updated daily. GetApp user ratings are based on a total of over 4 million paid reviews since 1996. The size of each circle is proportional to a given software's average rating. GetApp ratings are updated within 24 hours of being calculated. GetApp critic rankings are based on users' ratings of critics. The size of each circle is proportional to a given software's average critic rating. GetApp critic rankings are updated within 24 hours of being calculated.** GetApp's Review Guidelines take a utilitarian approach to reviewing. For example, an app's rating in the **Graphics** category might not indicate quality, but may instead represent the 'fun factor' of an app. To assist users in making informed decisions, all apps must have a rating. The real value in GetApp is in connecting you to a pool of users who have tried a product and are willing to share their opinions and experiences. Meaningful and valuable reviews aren't limited to free apps - the same approach works for paid apps. Most importantly,

these reviews come from real people, not from some computer algorithm or paid professional. The bulk of the update addresses issues that users noticed while reviewing the previous version of Photoshop. They include a new way to move a picture, a method to preserve the light in a background, updating text tools for better performance, and some fixes for Mac users, including the introduction of new *application preferences* feature.
